

Assignment Day 7 Final

Tuesday, March 15, 2022 6:10 PM

- Write findPrimes to return a promise with all the primes in the given range

```
function findPrimes(min,max){

    //should return a Promise
    //promise should be rejected for invalid range

}

async function testFindPrimes(min,max){

    try{
        console.log(`finding primes in range ${min}-${max}`);
        let start=new Date();
        let primes= await findPrimes(min,max);
        let end=new Date();
        console.log(`Total primes in range ${min}-${max} is ${primes.length}. \tTotal time taken is ${end-start} ms`);

    }catch(error){

        console.log(error=>console.log(error.message));

    }

}

testFindPrimes(2,200000); //should finish last

testFindPrimes(10,1) ; //should finish first with error

testFindPrimes(2,1000); //should finish second
```
