

Using Custom Fonts

Wednesday, March 23, 2022 4:19 PM

- You may use free google fonts directly from the cloud
- Head over to <https://fonts.google.com>
- Choose your preferred font
- Include the link to font in style sheet

☐ <link> ☒ @import

```
<style>
@import url('https://fonts.googlea
pis.com/css2?family=Indie+Flower&d
isplay=swap');
</style>
```

- Include the font-family in your element style

```
.cell{
  font-family: 'Indie Flower', cursive;
  font-size: 60px;
  padding: 5px;
  margin: 0px;
  width: 80px;
  height: 80px;
  background-color: white;
}
```
