Assignment 2.1

Tuesday, March 8, 2022　　3:47 PM

- Create a Calculator with the following UI and features

- Adds a nu
  - Nu
  - If e

Toolbar

Number [＿＿＿＿＿＿] [Add To List] [Clear Display] [Reset Calculator]
[Sum] [Average] [Find Min]

file:///D:/MyWorks/Corporate/202203-infogain-react/basic-html-css-js/calc-assignment/calc.html

Console
Sum is 39

Invalid value "Hello

Number List
- 20
- 11
- 8

[refresh list]

- Sum/Average/FindMin should display the result in the console area

- Should clear
  - Console
  - NumberList
- Should NOT remove the numbers from m
- I should still be able to see the sum of pre

- Refresh should refresh this UI from memory value
- Can be useful after call of Clear Display

- Clear both UI and the memory values
- After Reset there will be no number in memory to
  - Sum
  - Average
  - Refresh List
