# Tic Tac Toe Game Project

Tuesday, March 22, 2022   2:28 PM

Step 1:  Set up the project

```
$ npx create-react-app tic-tac-toe --use-npm
```

Step 2:  Delete the content of src folder

Step 3:  Create following src heirarchy

- (src)
  - index.js
  - App.js
  - (components)
    - Header.js
    - Game.js
    - Board.js
    - Status.js
    - Reset.js <—-- may even be simple button or a custom component
    - Cell.js

## Who should hold the value that the cell displays?

- Cell or
- Board?
