Assignment 12

Wednesday, March 23, 2022   6:05 PM

- Update tic-tac-toe with following features

Total Games	X wins	Y wins	Draw
5	2	1	2

1. Create a score board that can show match stats
   - It should be added to the App component
     - Not the Game component
2. Create two timer components for each Player in Game component
   - If it is player #1 turn player 1 timer should increase and player 2 timer should not increase
   - If it is player #2 turn player 2 timer should increase and player 2 timer should not increase
   - User digital clock style font in your clock and timer

3. Change Reset to Play or Play Again
   - Visible only if
     - Game is over
     -
4. In the beginning show a "Play" Button
   - Player #1 turn should start only when play button is pressed
   - You can't press any cell when game is not running
     - Not started
     - over
